LINKÖPINGS UNIVERSITY
DEPARTEMENT OF MANAGEMENT AND ENGINEERING: DIVISION OF POLITICAL SCIENCE

Western Balkan Program 2022, SeGRID – Good Governance

The curriculum combines digital and on-site lectures with workshops. These aim to develop skills for improving core public values such as efficiency, transparency, accessibility, and equality by the smart and sustainable use of digital technologies.

Online module	
(all activities on the Teams platform)	
Introduction and start of the module Monday 30th May, Afternoon/evening	Welcome and outline of the program by Professor Wihlborg. Personal presentations. Q&A. Instructions on travel arrangements for August.
Traveling arrangements Friday 3rd June Afternoon	Q&A on travel and practical arrangements in August.

Learning groups - one tutor per group	
*Each session is 2 hours	
Introduction and assignments 30th or 31st May Afternoon/evening	Discussing how to work together in the learning groups and individual assignment which is to be presented in August.
	Groups of 5-7 participants meet in Teams, one tutor follows each group. Preparation: Read the instructions and watch the film about 'best practice'. End of session: Answer the online quiz.
Resilience and innovation 7th or 8th June Afternoon/evening	Discussing challenges on building resilience and cultivating innovation in e-governance through digital technologies.
	Work in assigned learning groups in Teams with tutor. Preparation: Watch the recorded lectures, read the articles related to the issues. End of session: Answer the online quiz.
Democratic governance 13th or 15th June Afternoon/evening	Discussing challenges on promoting democracy and fostering inclusion through digital innovations in e-governance.
	Work in assigned learning groups in Teams with tutor. Preparation: Watch the recorded lectures, read the articles related to the issues. End of session: Answer the online quiz.
Best practice tutoring 20th or 21st June Afternoon/evening	Tutors available for individual support for presentations of best practice and poster design.
	Preparation: Work on posters and use the lessons learned so far.
