

# Zoran's time as PhD in Link-SIC and beyond

Link-SIC WS 2023-11-14

---

Zoran Sjanic

Saab Aeronautics

# Zoran's background

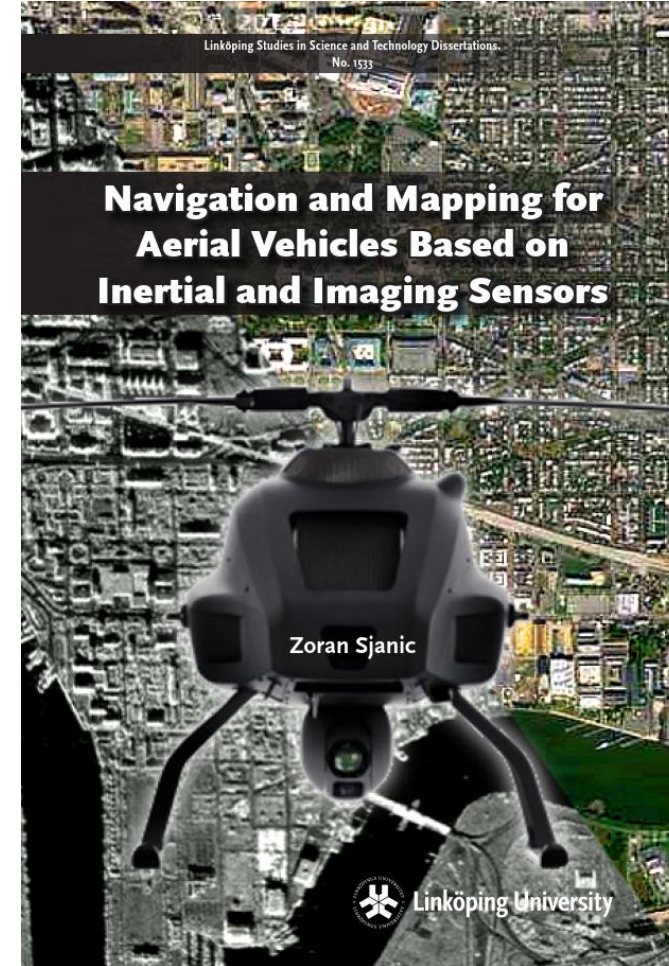

---

- Started @ Saab 2001
- Worked with Navigation System in Gripen and Uav Skeldar until 2008
- Started as industrial PhD within Link-SIC 2008
- Finished October 2013
- Back to Saab and Decision Support for Gripen

# During PhD studies

---

- 80/20 setup
- Research problem came from real application
- Cooperation with another Link-SIC member(s)
- No requirement on teaching...
- ... but I did it anyway – Sensor Fusion Excercise book

# After dissertation

---

- Back at Gripen E Decision Support
  - Working mostly with imaging sensors and image analysis – Technical Manager
- 20-ish % on LiU – Adjunct Associate Professor
  - Own research
  - Supervision of PhD student(s) and post-docs
- Some things from my PhD work under consideration for implementation in operational code
- Will be involved in new research center SEDDIT from next year

# Thank you!
