ONE UNIVERSITY, THREE CITIES

• **LINKÖPING**
One of Sweden's oldest cities that has grown to become Sweden's fifth-largest municipality. Linköping has a well-developed business sector and is home to industries specialising in aircraft manufacturing and emerging technologies. Despite its rapid growth, Linköping still has the charm of a small town. In Linköping everything is within walking or biking distance.

• **NORRKÖPING**
The city has a history as an industrial centre dating back to the 17th century. The old industrial area has been carefully restored into a unique area that hosts, among other things, Campus Norrköping. The city has a lively cultural scene and the nature surrounding the city is spectacular and perfect for hiking. In Norrköping everything is within walking or biking distance.

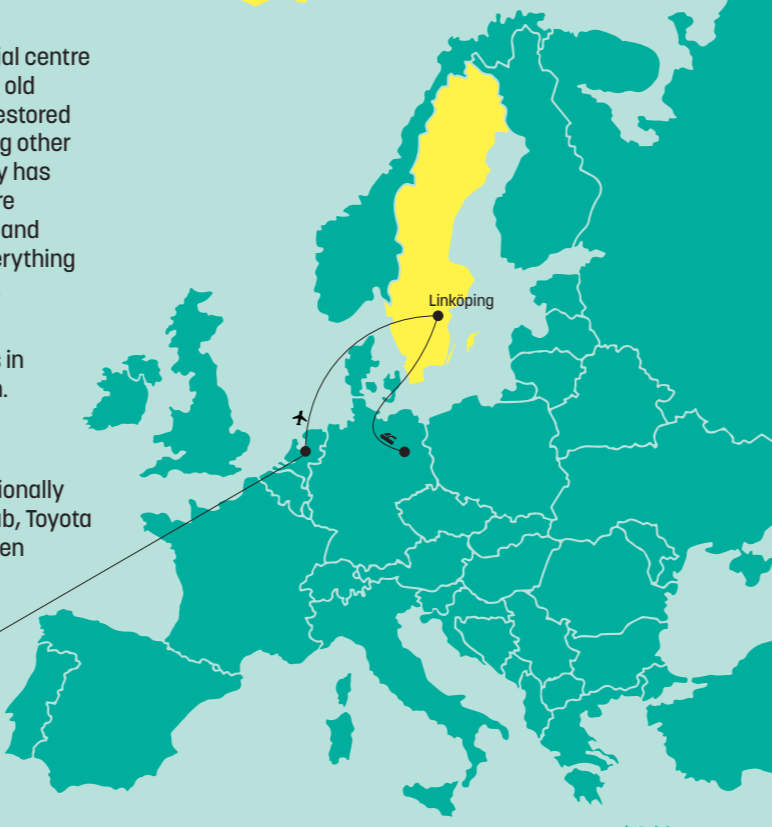

• **STOCKHOLM**
Campus Lidingö offers programmes in Furniture Studies taught in Swedish.

EAST SWEDEN
The region is home to several internationally well-known companies, including Saab, Toyota Industries Europe, IFS, Siemens, Holmen Paper and BT Industries.

Getting here is easy!
There are several flights between Amsterdam and Linköping every week. Or night trains from Berlin and Hamburg.
